

# FIBROL PETROLEUM INDUSTRIAL EP GEAR OIL

---

## FEATURES & BENEFITS

- Excellent resistance to rust and corrosion and very good ,Good seal and paint compatibility with a wide variety of seals and paints, Helps to ensure smooth, trouble-free operation at high temperatures or in applications subject to water contamination.
- High viscosity index equating to reduce viscosity change with temperature, Easy changeover from many mineral products, helps extend gear and bearing life in enclosed gear drives operating under extreme conditions of load, speed and temperature & reduces energy consumption.
- Helps reduce unplanned downtime; less maintenance - especially critical for difficult to access gearboxes,helps extend oil life and drain intervals and reduce oil consumption, which can lower maintenance costs.
